## What they do:

The OSA interacts frequently with Indian Tribes and communities on matters of mutual interest and concern. The OSA Indian Advisory Council, as specified in the Iowa Code, includes representatives from several Indian communities in Iowa. Through regular meetings and informal consultation, Indian Advisory Council members, OSA staff, and colleagues from allied agencies and organizations (e.g., SHPO and Iowa DOT) share information and address issues relating to Indian burial sites, human remains, repatriation, and other topics.

## What they do:

The Advisory Committee's primary purpose is to provide a structure through which the State Archaeologist, the UI Vice President for Research (VPR), and constituency representatives may jointly discuss the creation, implementation, and execution of policies and activities that broadly affect archaeological research, education, and stewardship in Iowa. Final authority regarding the acceptance and implementation of Advisory Committee suggestions lies with the VPR, in consultation with the State Archaeologist.
